Double Patenting

Claims 24-40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 3, 4, 6, 7, 9, 10, 12 of U.S. Patent No. 6,001,591, for reasons of record. Applicant convincingly argues that patent claims 5 and 11 should not be included in this rejection. However, the instant claims still are not patentably distinct from the other patent claims reciting E1.

Claims 24-40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 4, 6, 7, 9-21, 23, 24, 26 of U.S. Patent No. 6,086,890, for reasons of record.

Applicant's offer to file terminal disclaimers is noted. However the rejections are maintained because the disclaimers have not been filed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
